

THE DIAMOND-LIKE CARBON COLLECTION WINS SILVER AT THE INTERNATIONAL DESIGN AWARDS

February 10th, 2020

The International Design Awards (IDA) exists to recognize and promote legendary design visionaries and to uncover emerging talent in Architecture, Product, and Fashion Design.

The award-winning Diamond-like Carbon Collection applies nanotechnology to OVVO's signature surgical steel & titanium composite frame, creating an entirely new realm of possibilities in strength, lightness, and scratch-resistance for eyewear. This collection embodies our dedication to excellence and continued passion for introducing breakthrough innovation in the eyewear industry.
